SEIZURE WATCH - Weekly Smuggling Routes

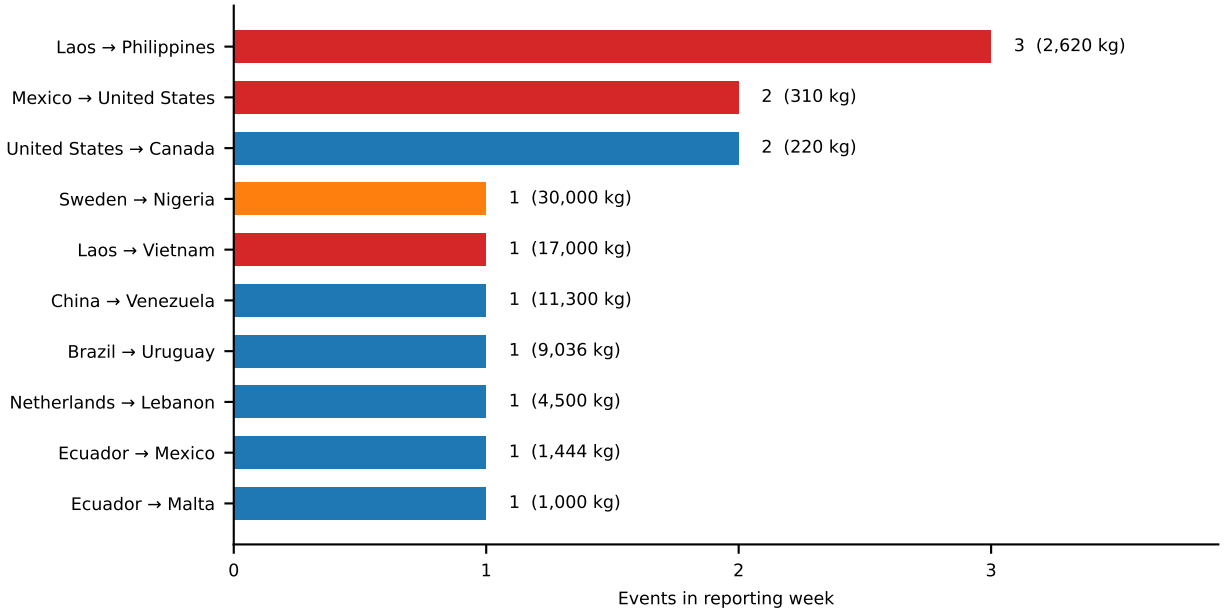

Reporting week: Mon 02 Nov to Sun 08 Nov 2026 (Europe/Brussels) | drug seizures with a reported origin and destination

- 30 origin-to-destination routes were reported across 26 corridors (excluding 8 domestic routes where origin equals destination). The largest corridor was Laos → Philippines (3 events, 2,620 kg).
- Leading drug types in the week: Cocaine (408), Cannabis (349), NSA (159), Heroin/Opium (107).
- Main origins: Laos (4), Mexico (3), India (2). Main destinations: Philippines (3), Nigeria (2), Canada (2).
- Versus the week before (26 Oct to 1 Nov): 24 routes in 20 corridors; 22 of this week's 26 corridors did not appear that week. Rising: United States → Canada (2 vs 0), Mexico → United States (2 vs 0), Laos → Philippines (3 vs 1).

Origin to destination routes (arc width = number of events; colour = main drug type of the corridor)

Top 10 corridors by number of events (labels: events, total kg where reported)

Coverage: 1214 drug-seizure events in the week; 38 with origin and destination known (30 routes after splitting multi-country cells; 8 domestic); 122 origin only, 16 destination only, 1038 neither. 100% of events are unverified. Non-drug categories excluded. Transit countries are noted in the data but not drawn.

Source: open-source news, automatically collected and risk-scored by Seizure Watch. Routes are as reported and unverified reports should be confirmed before operational use.
