SEIZURE WATCH - Weekly Smuggling Routes

Reporting week: Mon 19 Oct - Sun 25 Oct 2026 (drug seizures, Europe/Brussels)

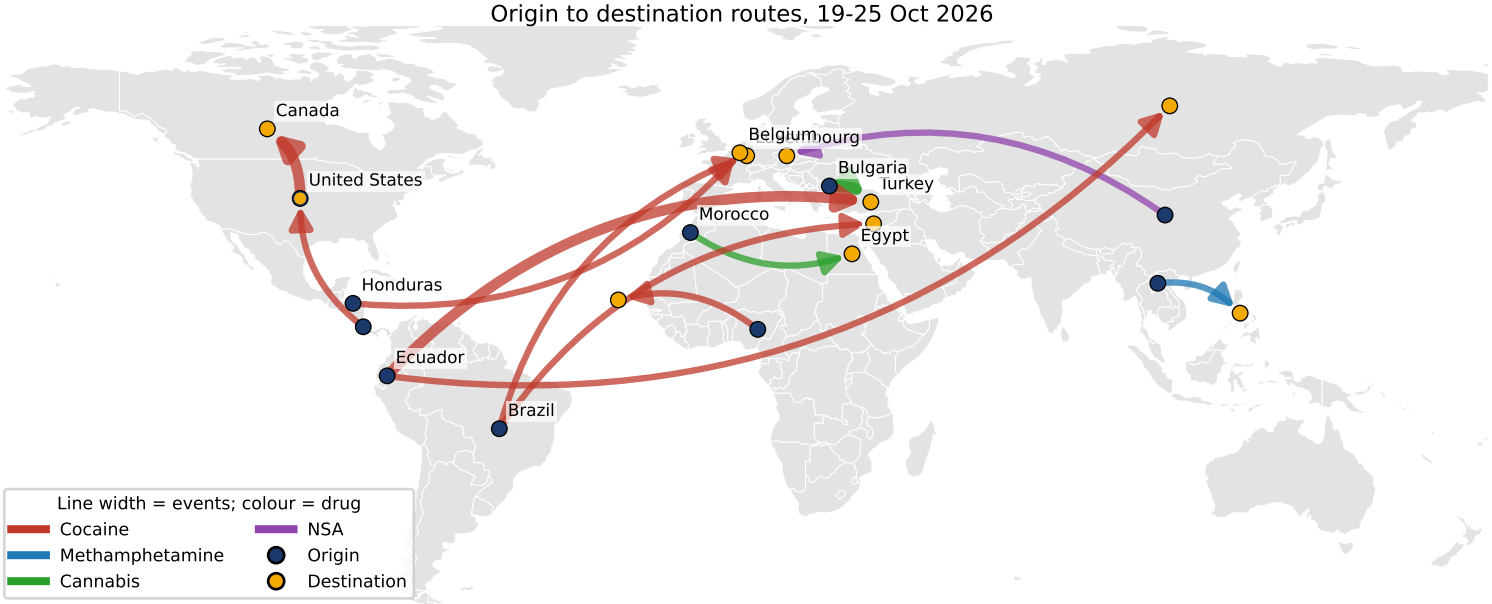

965 drug-seizure events were recorded; 23 (2%) name both an origin and a destination, giving 15 routes on 12 corridors. Counts per corridor are low (1-2 events each).

Most frequent corridors: Bulgaria to Turkey (2); United States to Canada (2); Ecuador to Turkey (2). Other corridors were reported once each.

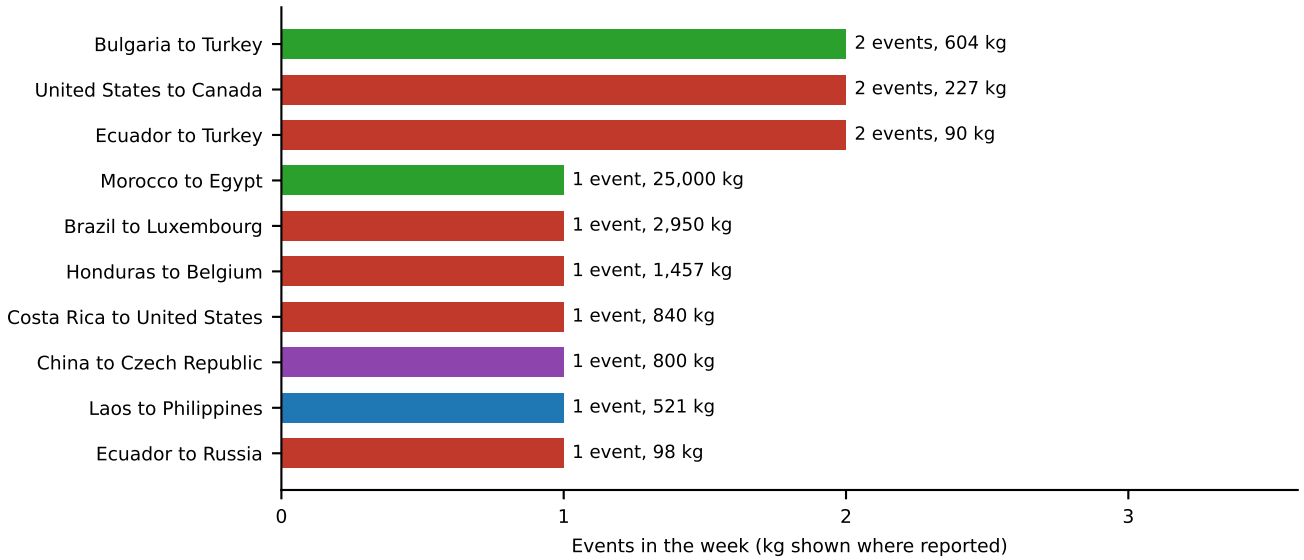

Drug types on routes: Cocaine (10), Methamphetamine (2), Cannabis (2), NSA (1). Top types in all events: Cannabis (305), Cocaine (286), NSA (159).

Versus the week before (37 routes): top corridors then were Israel to Jordan (5); Malaysia to Japan (4); Mexico to United States (2). 11 of 12 corridors this week were not reported the week before, e.g. United States to Canada.

Origin to destination routes, 19-25 Oct 2026

Top 10 origin-to-destination corridors by events

Coverage: 965 drug events found; 23 with both origin and destination (15 routes after splitting multi-country cells), 65 origin only, 10 destination only, 867 neither. Unverified share: 100%. Event counts fall through the week (Mon 251 to Sun 64), so the latest days may still be incomplete. Rows where origin and destination are the same country are not drawn. Transit countries are not drawn. All countries were placed on the map.
